

## Installation Instructions

To start the development process please follow the below steps.

1. Download NPM on your local system - [Windows OS](#) and [Linux/Mac OS](#).
2. Download the .zip file to the code template [here](#).
3. Extract the contents of the downloaded .zip file into a new folder. Rename the folder to “**relevel-linkedin-app**”.
4. Ensure that **GIT** and **NPM** are already installed on the system.
5. Open Terminal/Git Bash Terminal. Go to the “**relevel-linkedin-app**” directory.
6. Run the “**npm install**” command to install all the necessary dependencies.
7. Run the “**npm start**” command to start the development server.
8. The hosted application can be viewed in the browser by going to the URL - <http://localhost:3000/>.
9. All the images needed for development are provided under the **public/images** directory.
10. You can now start the development process by going through the user stories.

## Submission Instructions

Code Submission:

1. Compress the code on the local system in the form of a \*.zip file.
2. Upload the code on your personal google drive in a folder titled - “Name\_FD\_<Round Name>\_Code Base”
3. Don’t forget to change the permissions of the folder to ‘Anyone with the link can edit’.

Loom video submission:

1. Create an account on [Loom](#).
2. Go through the quick tutorial on [how to record loom videos](#).
3. Create a Loom video (while screensharing) covering the following points:
  - a. Show the functionality of the app you have created i.e demo of the working APIs through a command line. (1 min)
  - b. Run through the key parts of your code explaining the core logic and how you organized the code. (2 min)
  - c. Explain your problem-solving approach (what logic you have used and why). (2 min)

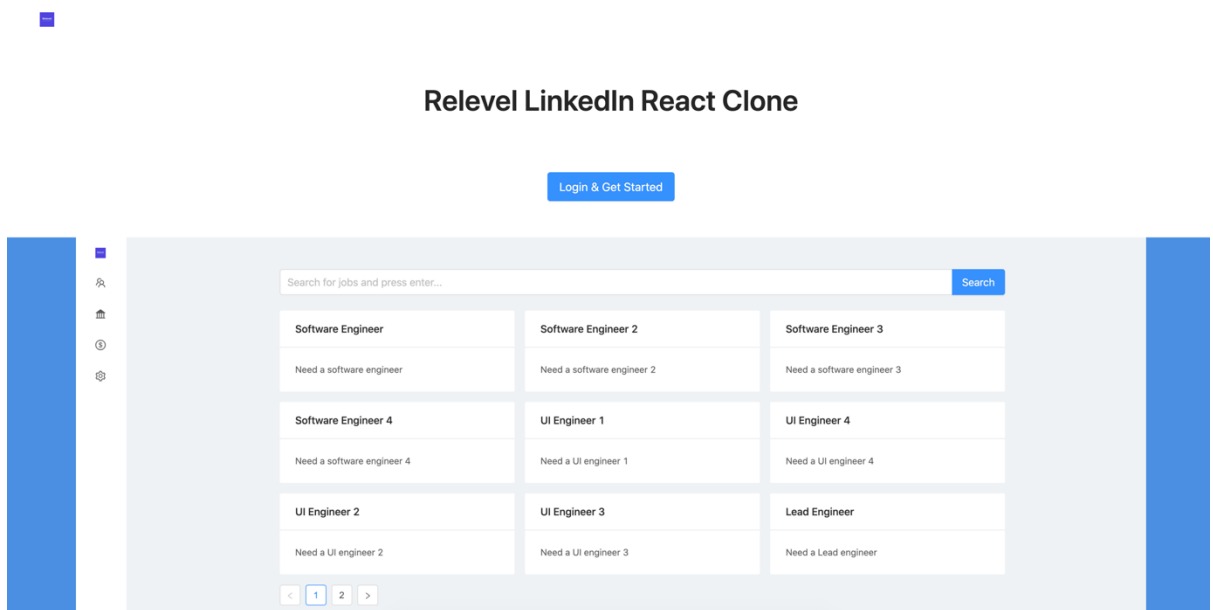

4. Please keep your explanation to under 5 mins only.
5. Avoid too much jargon and explain your app in a simple and clear manner.
